Who We Are

Big Tex Video Productions is located in the Dallas/Fort Worth area and provides professional sports highlight and scholarship videos at a reasonable price.

If you're seeking someone to create your child's skills video, look no farther! Big Tex Video Productions comes to your home field, shoot the video and then edit it into exactly what the colleges want to see. We'll deliver the finished product in DVD and/or VHS format ready to be sent out to the colleges of your choice.

In addition to sports videos, Big Tex Video Productions provides video duplication, video editing, duplication and transfer services to DVD including 8mm home movies!

If you are ready to create the perfect sports scholarship skills video that will showcase your child's athletic skills or are in need of any other type of video service, please give us a call. We can be reached at 940-479-0356 or email us at Info@BigTexVideoProductions.com.

We look forward to starting your video project in the near future!

Sports Scholarship Skills Videos

Sports Scholarship Video Services

In the competitive world of college and professional sports, you have to take advantage of every opportunity. If you have a son or daughter who might be competing for an athletic scholarship, give him or her advantage with our special Sports Scholarship video program.

It Simply Gives an Athlete an Edge!

Gather all the video tapes from the past few years and bring them to us. We will produce 5 to 15 minute highlight video designed to create interest and excitement about your athlete from the coaches and athletic directors.

Sports are a big business now, and a full or partial scholarship really helps offset expenses. Your Sports Scholarship Video puts your athlete in front of the right people.

Big Tex Video Productions shoot our videos and DVD's using MiniDV video cameras and transferred at the highest possible resolution to our computers. Keeping the entire process all digital insures that the DVD or video is clear and crisp— never grainy or blurry.

Once the raw video is transferred to the computers, our editors will edit the video using the latest technology Non-Linear Editing (NLE) software. This software allows for many special effects,
